

Actividad 02. Instalación de VirtualBox y Sistemas operativos Linux y Windows

1. Busca la aplicación VirtualBox (u otra similar) para instalar máquinas virtuales. Para descargarlo, accede al siguiente enlace:

VIRTUALBOX

The screenshot shows the VirtualBox.org website. On the left is a sidebar with links: About, Screenshots, Downloads, Documentation, End-user docs, Technical docs, Contribute, and Community. The main content area has a large 'VirtualBox' logo and a 'Welcome to VirtualBox.org!' message. Below this is a paragraph describing VirtualBox as a powerful x86 and AMD64/Intel64 virtualization product. It then lists the operating systems it supports: Windows (NT 4.0, 2000, XP, Server 2003, Vista, Windows 7, Windows 8, Windows 10), DOS/Windows 3.x, Linux (2.4, 2.6, 3.x and 4.x), Solaris and OpenSolaris, OS/2, and OpenBSD. A large blue button with a fingerprint pattern says 'Download VirtualBox 7.0'. Below this is a 'Hot picks' section with three items: 'Pre-built virtual machines for developers at Oracle Tech Network', 'Hyperbox Open-source Virtual Infrastructure Manager project site', and 'phpVirtualBox AJAX web interface project site'. At the bottom is the Oracle logo and a footer with 'Contact - Privacy policy - Terms of Use'.

VirtualBox

Welcome to VirtualBox.org!

VirtualBox is a powerful x86 and AMD64/Intel64 virtualization product for enterprise as well as home use. Not only is VirtualBox an extremely feature rich, high performance product for enterprise customers, it is also the only professional solution that is freely available as Open Source Software under the terms of the GNU General Public License (GPL) version 3. See "About VirtualBox" for an introduction.

Presently, VirtualBox runs on Windows, Linux, macOS, and Solaris hosts and supports a large number of guest operating systems including but not limited to Windows (NT 4.0, 2000, XP, Server 2003, Vista, Windows 7, Windows 8, Windows 10), DOS/Windows 3.x, Linux (2.4, 2.6, 3.x and 4.x), Solaris and OpenSolaris, OS/2, and OpenBSD.

VirtualBox is being actively developed with frequent releases and has an ever growing list of features, supported guest operating systems and platforms it runs on. VirtualBox is a community effort backed by a dedicated company: everyone is encouraged to contribute while Oracle ensures the product always meets professional quality criteria.

The screenshot shows the Xubuntu website's 'Download' section. At the top, there's a navigation bar with links: 'Get Xubuntu', 'About', 'Help & Support', 'The Community', 'Development', and 'The Blog'. Below this, the 'Download' heading is followed by a box announcing the 'Latest LTS release: 22.04, Jammy Jellyfish'. The text explains that this is a 'Long Term Support' release with 3 years of support and directs users to the release announcement for more details. Underneath, the 'Torrent downloads' section advises using torrents if the user knows how. A button labeled '64-bit systems' is provided. The 'Mirror downloads' section offers a list of mirrors from various countries, including Australia, Bulgaria, Canada, China, France, Germany, Japan, Netherlands, Russia, Sweden, Thailand, United Kingdom, and United States. A link to 'Show all mirrors with full information' is also present.

The screenshot shows the Microsoft website's 'Descargar Windows 10' page. The header includes the Microsoft logo, navigation links for 'Descarga de software', 'Windows', and 'Windows Insider Preview', a search bar, and a user profile 'Benito'. The main content area has a blue background with the title 'Descargar Windows 10' and a subtext: 'Antes de actualizar, consulta el estado de la información de la versión de Windows para saber si hay algún problema conocido y confirmar que no afecta a tu dispositivo.' Below this, on a light gray background, is the section 'Actualización de Windows 10 2022 | Versión 22H2', followed by the text 'El asistente de actualizaciones puede ayudarte a actualizar a la última versión de Windows 10. Para empezar, haz clic en **Actualizar ahora**.' A blue button labeled 'Actualizar ahora' is prominently displayed. At the bottom left, there is a link for 'Privacidad'.
